LOCATION: **SPD Academy**

DESCRIPTION:

The 1911 pistol has experienced a resurgence of popularity. 1911's have been around for over 100 years and the popularity has never been higher. This class will cover the history, use, and some maintenance issues with the 1911 platform. The majority of the class will be spent on familiarizing the operator with the use of the thumb safety on this style of pistol. The thumb safety is not found on many modern day pistols and is up to the operator to become proficient with it. Students are encouraged to bring 1,000 rounds for class along with appropriate range attire and safety equipment for the day. This class is operator level only.

Equipment required: a 1911-type pistol from a major manufacturer (Colt, Kimber, Springfield) suitable for duty use; a duty, "tactical", or off-duty holster, spare magazines, 1,000 rounds of ammunition and normal range gear. Eye and ear protection are required.
